

Welcome To Shakti Corporation

Shakti Corporation is engaged and fully dedicated in Energy Sector since its incorporation. We are specialized supplier of spare parts for Gas Turbines & Steam Turbines. Shakti Corporation has also forayed into supply of Steam Coal and parts of Solar Panel.

About Us

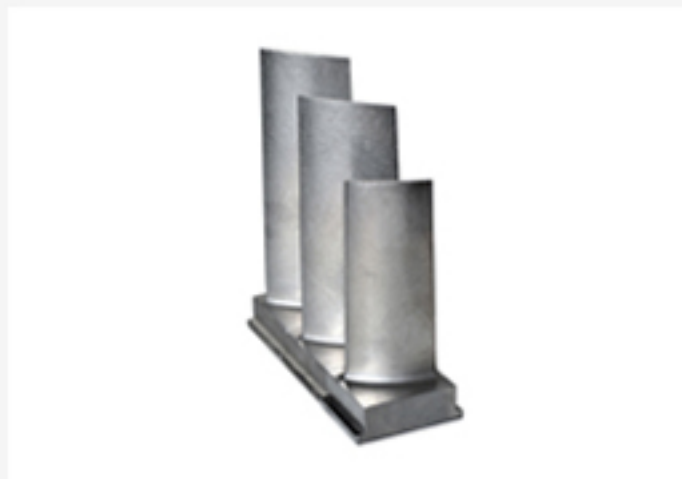

Incorporated in the year 2013, with the vision to excel in the Energy Sector, Shakti Corporation has gathered specialized knowledge in power industry. Shakti Corporation supplies high quality of OEM and Non-OEM spare parts and services for the Heavy Duty Industrial Gas Turbines. Through our wide-reaching network, we offer extensive range of spare parts including capital parts for the GE designed MS3002, MS5001, MS5002, MS6001 and MS9001 gas turbines. Shakti Corporation also supplies variety of Indonesian Steam Coal to various industries like power, cement, steel, agro and many more. We have also forayed in Solar Panel Consumables and Spare Parts. To provide Shakti Corporation a leading edge, we have strategic alliances with well known suppliers from U.S. and Europe.

COAL

Indonesian Screened Coal

With our rich industry experience, we are engaged in trading and supplying of extensive assortment of Screened Coal. We are counted as one of the best name of the industry for offering High & Low GCV Indonesian Coal. The products that we offer have been bought from the best importers of India. Our products are known for their quick combustion. The offered coals are used in various processes in varied industries. Moreover, these Indonesian Coals are available in varied grades.

This coal is processed with advanced techniques under the guidance of our vendors' dexterous professionals. The offered coal is highly known in the market as an alternative fuel for its efficiency and high density. At the time of procurement, our provided coal is checked against well-defined quality parameters to ensure its quality. We offer both type, High & Low GCV Indonesian Coal.

Available Different Sizes:

- ☛ 00-50 MM
- ☛ 00-06 MM
- ☛ 06-20 MM
- ☛ 20-50 MM

Imported Coal

Capitalizing on our rich industrial experience, we offer a comprehensive range of Imported Coal that is acclaimed among the clients for optimum quality and high strength. Owing to its exceptional features, we deliver the entire product range in varied grades. We test them on varied well-defined parameters using latest techniques thereby delivering immaculate range of products to our clients.

Types of Coal :

- ☛ Indonesian Steam Coal
- ☛ US Coal
- ☛ Petroleum Coke

Lignite Coal

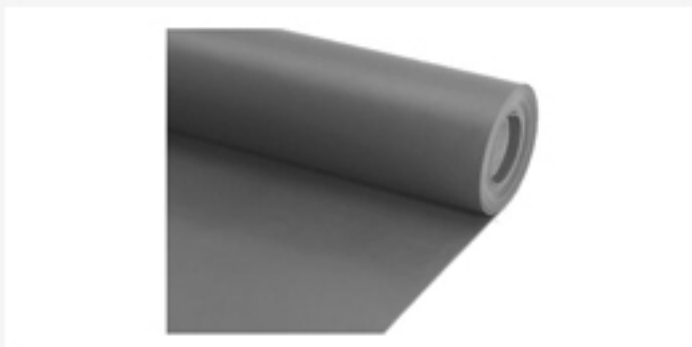

We are determined to provide a superior quality range of Lignite Coal to our valuable clients. Owing to its varied features like low ash content and high calorific value, this coal is highly demanded in numerous industrial applications. The offered coal is abstract from the mines with the latest techniques under the surveillance of our dexterous professional vendors. This coal is checked by our quality controllers against different quality parameters to make it free from impurities.

Types of Coal :

- ☛ Mata No Madh
- ☛ Bhavnagar
- ☛ Rajpardi
- ☛ Tadkeshwar

SOLAR ENERGY

Laminator Sheet

We are actively involved in import and supply of quality range of Silicone Membrane Sheet For Solar PV Panels Lamination. We offer 3rd Generation laminator sheet with the 3000 guaranteed life cycles and its available in different sizes as well.

Features :

- Hardness (Shore A) 72 ± 2 (working surface)
- Breaking strength $\text{Mpa} \geq 14.2$
- Tearing strength $\text{N/mm} \geq 47$
- Thermal endurance $^{\circ}\text{C}$ 240
- EVA resistance (Comparison) Medium
- Appearance and colour grey- smooth finish with Nylon Insert

Teflon Sheet

Our fabrics are made from very high quality woven fiberglass cloth combined with special formulated high level of PTFE. It has good abrasion resistance and tensile strength. Applications may include laminate-release sheets, belting for food, electrical insulation and industrial processing.

Features :

- Outstanding Temperature Resistance (FROM -170°C TO $+260^{\circ}\text{C}$)
- Superior Non Stick Surface
- Non-Toxic, Easy To Clean
- Excellent Chemical Resistance
- Dimensional Stability
- Resistance to UV, IR and HF
- High Dielectrics Strength
- Available In All Different Sizes and Thickness

Soldering Station

Max Power Consumption	150W
Input Voltage	110V/220V
Output Voltage	36V AC 400K Hz
Temperature Range	50°C-600°C
Temperature Stability	+2°C(stationary air, no load)
Tip to Ground Potential	<2mV
Tip to Ground Resistance	<2Ω
Dimensions	200(L)*130(W)*100(H)mm
Weight	About 2.7kg

Consumables

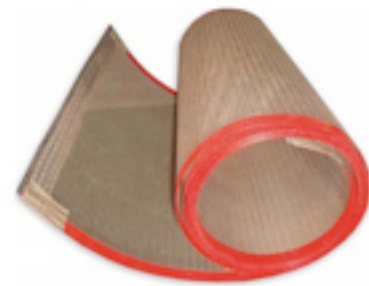

Hot Knife

Push Pull Meter

Spring Cutter

Teflon Conveyor Belt

Vaccum Cups

Pneumatic RTV Gun

Shakti Corporation

Office No. S-101, 2nd Floor,
Tirupati Market,
Sidhpur - 384151,
Gujarat - India.
